

PHASE 7.3

COMBINED USER EVALUATION FORM

Comparison of the Static Explanation Baseline and the Interactive Power BI Dashboard

1. Participant Information

Participant ID: _____

Participant Name: _____

Age: _____

Educational or Professional Background: _____

Power BI Experience: ☐ None ☐ Basic ☐ Intermediate

System Order: ☐ Static baseline first ☐ Interactive dashboard first

2. Instructions

You will examine two versions of the customer churn explanation system:

- Condition A - Static explanation baseline
- Condition B - Interactive Power BI dashboard

Complete the assigned tasks using each system. Record your answers and the time required to complete each task set. After using each system, rate your experience using the five-point scale below.

Rating Scale

1 - Strongly disagree	2 - Disagree	3 - Neutral	4 - Agree	5 - Strongly agree
-----------------------	--------------	-------------	-----------	--------------------

3. Static Explanation Baseline

3.1 Task Results

Starting Time: _____ **Finishing Time:** _____ **Total Time:** _____

Task	Participant Answer	Correct	Incorrect
Task 1		☐	☐
Task 2		☐	☐
Task 3		☐	☐
Task 4		☐	☐
Task 5		☐	☐
Task 6		☐	☐

Total Correct Answers: _____

3.2 Static Baseline Questionnaire

Please rate each statement using the five-point scale.

Statement	1	2	3	4	5
The information helped me understand the churn predictions.	☐	☐	☐	☐	☐
I could identify the most important factors affecting churn.	☐	☐	☐	☐	☐
The system helped me make a customer-retention decision.	☐	☐	☐	☐	☐
I trusted the prediction and explanation information shown.	☐	☐	☐	☐	☐
The information was easy to read and understand.	☐	☐	☐	☐	☐
The system appeared useful for customer churn analysis.	☐	☐	☐	☐	☐

Static Baseline Comment

What was the main advantage or limitation of the static baseline?

4. Interactive Power BI Dashboard

4.1 Task Results

Starting Time: _____ Finishing Time: _____ Total Time: _____

Task	Participant Answer	Correct	Incorrect
Task 1		☐	☐
Task 2		☐	☐
Task 3		☐	☐
Task 4		☐	☐
Task 5		☐	☐
Task 6		☐	☐

Total Correct Answers: _____

4.2 Interactive Dashboard Questionnaire

Please rate each statement using the five-point scale.

Statement	1	2	3	4	5
The dashboard helped me understand the churn predictions.	☐	☐	☐	☐	☐
I could identify the most important factors affecting churn.	☐	☐	☐	☐	☐
The dashboard helped me make a customer-retention decision.	☐	☐	☐	☐	☐
I trusted the prediction and explanation information shown.	☐	☐	☐	☐	☐
The dashboard was easy to navigate and use.	☐	☐	☐	☐	☐
The dashboard appeared useful for customer churn analysis.	☐	☐	☐	☐	☐

Interactive Dashboard Comment

What was the main advantage or limitation of the interactive dashboard?

5. Final System Comparison

5.1 Preferred System

- ☐ Static explanation baseline
- ☐ Interactive Power BI dashboard
- ☐ No clear preference

5.2 Reason for Preference

Briefly explain your choice.

5.3 Final Comparison Statements

Statement	Static Baseline	Interactive Dashboard	Both Similar
Easier to understand	☐	☐	☐
Easier to use	☐	☐	☐
Better for identifying churn factors	☐	☐	☐
Better for comparing customers and segments	☐	☐	☐
Better for supporting retention decisions	☐	☐	☐
More trustworthy	☐	☐	☐
More useful overall	☐	☐	☐

6. Researcher Scoring Section

Static Baseline

Correct Answers: _____

Accuracy Percentage: _____

Completion Time: _____

Average Questionnaire Score: _____

Interactive Dashboard

Correct Answers: _____

Accuracy Percentage: _____

Completion Time: _____

Average Questionnaire Score: _____

7. Scoring Method

Task accuracy is calculated as follows:

$$\text{Task Accuracy} = (\text{Correct Answers} / \text{Total Tasks}) \times 100$$

Example: 5 correct answers out of 6 tasks gives an accuracy score of 83.33%.

The questionnaire score is calculated by adding the six ratings for a system and dividing the total by six.

The final comparison will include:

- Task accuracy
- Completion time
- Understanding
- Identification of churn factors
- Decision support
- Trust
- Usability
- Perceived usefulness
- Overall system preference

8. Form Completion Check

☐ Participant information is complete

☐ Static task answers and time are recorded

☐ Static questionnaire is complete

☐ Interactive task answers and time are recorded

☐ Interactive questionnaire is complete

☐ Final system preference and comment are recorded

Researcher Initials: _____ Date: _____
